

FDAC Strand 3 Letters Evaluation Resources

Contents

This zip file contains key documents needed for the parent-to-parent letters evaluation. These are:

1. **FDAC strand 3 parent leaflet (v2)**: this is a short leaflet to be shared with all parents, to let them know that your FDAC is taking part in the trial.
2. **FDAC strand 3 letters (1, 2 & 3)**: these are the letters to be given to parents in the families that are randomised to receive them.
3. **FDAC strand 3 how-to guide for sites (v2)**: this is a detailed guidance document that sets out all the arrangements for randomising families, using the letters, and providing the trial data.
4. **Webinar powerpoint slides**: these are the slides we used in the webinars last week.
5. **Webinar video**: this is the recording of one of the webinar sessions. Please access at the following link: <https://youtu.be/MQuEOViQQcg>

Each site has also been sent a personalised version of the randomisation tool and a dummy version to practice with. The randomisation tool will generate a register for each family for data entry. If you do not have access to this or have any questions about this or any other aspect of the trial, please contact Becca Dean (rebecca.dean@ceiglobal.org).
